

# Sanfield opens one-day “cha chaan teng” for the elderly 新辉为长者开设一日“茶餐厅”

Sanfield (Management), the Group's construction arm, partnered with Rainbow Foundation and Noah's Ark Hong Kong at Ma Wan Park to organize a unique community programme aimed at fostering social engagement among the elderly. The Harvest Restaurant at Noah's Ark was transformed into a Hong Kong-style cafe, hosting nearly 100 senior citizens from St. James' Settlement. Over 40 members of the Sanfield Connect Volunteer Team served as waiters, sharing meals with the participants and listening to their personal stories. The initiative blended local cultural elements with life education, providing emotional support and promoting mental wellness.

Sanfield will continue to leverage its influence within the construction sector to roll out creative volunteer services with industry and community partners, contributing to sustainable social development. Following the pop-up cafe event, Sanfield Connect is now planning to launch the Cafe de Sanfield - Takeaway Edition. Subcontractors are invited to join this new initiative to deliver care and support to approximately 200 senior citizens.
